Cameron's Board of Equalization is now sitting. A thankless job and while we are cloyed with kindness to day we want to hand a bouquet to any man or woman who will volunteer for such a job. If any criticism is due it is because in the main we have failed as a people to know our government. In time the Planning Board report may be published as comment demands pile up for this column. The report, suppressed, was later repudiated but it may not do harm to refer to it occasionally. In October 1945 this report made mention of tax values and called for a certified system. We quote: "From the beginning of our work we have been unanimous in our determination to ask and to urge a system of property values for taxing purposes, such a system to be determined by tax actuaries whose findings will have the same authority as that of a certified public accountant. In this decision we have but to look at the record. Property values have run away from the system now in force. It is doubtful that 50 per cent of the actual taxable values in our city are now under taxation for the support of this government whereas many types of property are being levied upon out of all proportion to their just share of taxes. We have simply followed the lines of least resistance from year to year for almost a century, have taxed without knowing true values. Our needs have been small. This is a point in question. We can point to our low tax rate, to our record low bonded debt. Can we point with equal pride to what we have? We find that some tax payers are carrying much more than their just burden, while others, comfortably in the higher earning brackets pay little or nothing in proportion to their actual values. Such a system as we contemplate would accomplish these results. The cost of such a system would be negligible in comparison to the results obtained. The present rendition form used by the city does not admit properly of a full assessment of taxable property. The first seven items enumerated are: horses and mules, cattle, jacks and jennets, sheep, goats, hogs, dogs, pianos and organs. How many of these items exist in Cameron in sufficient value to influence upward your tax roll. Organs are found only in museums in these modern days."

The Cameron Planning Board working for more than a year was treated shamefully and as brutally as any body ever to do a good job without recognition. Speaking again to the point of taxable values we call your attention today to a portion of the planning board report made in 1945: "We wish to discuss with you briefly financial recommendations. RUNOFF PRIMARY WILL BE HELD AUGUST 24

The run off primary election will be held on Saturday, August 24 in Milam county and throughout Texas. The ballot will be short. There will be run off elections in Commissioner Precinct 3 between Byron Neal and Jestus Alford and in Precinct 4 between E. G. Stiles and T. F. Locklin.

The state ticket will see run off contests between Homer P. Rainey and Beauford Jester for governor; Allan Shivers and Boyce House for lieutenant governor; J. E. McDonald and R. E. McDonald for Commissioner of Agriculture. There may be another run off in the race for Associate Justice of the Supreme Court Place 3.

For the first time in his long political career J. E. McDonald will face a run off. He has consistently fought the Democratic nominees and two years ago was a Texas Regular. He has also voted the national republican ticket while receiving the Democratic nomination for commissioner of agriculture. He has never been defeated in Milam county. Voters will have to be careful in order to make the proper distinction between the men.

BOARD OF EQUALIZATION ENDS FIRST SESSION

The Board of Equalization for the city has completed its first session here and cards have been mailed out to more than 700 property owners indicating increased values over renditions last year.

The Board will sit again on August 6, 7, 8 and 9 to hear property owners who wish to discuss with the board the proposed increase in taxable values.

Taxable values in Cameron are some \$700,000 lower than they were 16 years ago. The city must increase its property values for taxation or lose out in the race against time and modern development.

Two Default in Bail And Are Held in Jail On Shooting Charge

B. L. (Frenchy) Barber and Buck McManee were sent back to jail here Monday when they could not make bond in the sum of \$1000 each for assault with intent to murder.

The men were charged following their arrest by Sheriff Carl Black and Deputy Douglas Barron last Friday near Rockdale. Barber opened fire on the officers as they approached the house on the Lucas farm where they had gone and where Barber refused to turn back a pistol and some money he is alleged to have stolen from a woman in Rockdale.

Justice A. A. McVoy of Rockdale was on the bench and Ed. Gunn, District Attorney, conducted the inquiry.

THREE PERISH SUNDAY IN WATERS OF BRAZOS

The bodies of three persons were recovered late Sunday night from the waters of the Brazos River near Gause.

The dead are: Will Lewis of Gause; Mrs. Garland Lange and her two-year-old son.

According to information reaching The Herald Monday morning, the families were at the river on an outing. Mr. Lewis took the child, his grandson, to wade in the river. He stepped into a deep portion of the channel and the baby fell from his shoulders and was caught by the current.

Mr. Lewis, unable to retrieve the baby, called for help. The mother plunged into the river in an attempt to rescue her child and lost her life.

The accident occurred upstream from the railroad and highways bridges across the stream. The bodies were recovered in the night, the baby having been found near an obstruction placed to stop erosion near the bridge.

The body of Mrs. Lange and her baby were taken to Rockdale and the body of Mr. Lewis was taken to Hearne. Funeral services were to be held Monday or Tuesday.

Several hundred people were at the river working into the night as boats moved up and down the area where the bodies were finally located.

Dr. Homer P. Rainey To Broadcast Opening Address Friday Night

Dr. Homer P. Rainey, candidate for governor, will broadcast the opening address of his run off campaign Friday night, August 2 from 8 to 8:30 over KPRC and WFAA and from 9:30 to 10 over WOAI.

Dr. Rainey ran second in the first primary. Forces were organizing to promote his campaign over the state.

HOMER P. RAINEY WILL PRESS RUN-OFF FIGHT

Running second in the race for governor, Dr. Homer P. Rainey prepared for a run-off campaign with Railroad Commissioner Beauford Jester by appealing to his supporters to redouble their efforts.

He said: "We have just begun to fight. We are going on the offensive now and are going to carry the battle of issues to the camp of my opponent."

"I am not surprised at the onslaught of organized wealth and slanderous misrepresentations made in the closing week of the campaign. Desperate men always resort to the last weapon of smearing the man when they cannot face the issues."

"Such tendencies demonstrate more than ever the necessity of winning this fight for the plain people of Texas. The voters will make their decision on the basis of issues and not on personalities or misrepresentations. I urge my supporters to redouble their efforts and victory will be ours when the people get the truth."

Sheriff Black Thanked For Help in Compiling Election Night Returns

July 31, 1946

Mr. Carl C. Black Sheriff Milam County, Cameron, Texas.

Dear Mr. Black: As Chairman of the Democratic Executive Committee, I wish to express on behalf of the members of the committee our appreciation for your kindness and help during the day preceding and on election day.

You gave the use of your offices, obtained and installed a loud speaker, saw to it that ice water, fans and cold drinks were in the room for the comfort and pleasure of the crew whose duty it was to work very late to compile the returns. You remained at the office through the night and helped us in many other ways.

This expression of thanks also includes the appreciation of the splendid and very efficient help who were responsible for the good job in getting in the returns.

We wanted you to know how greatly we value your cooperation and also we wish to let the people know of your generous treatment of us and are taking the liberty of publishing this letter.

Yours sincerely,
J. B. White,
Chairman Democratic Executive Committee.

John W. Hairston of Marlow won the Democratic nomination for County Treasurer by a margin of 12 votes, it was disclosed early Tuesday when an error was discovered in the returns from Hanover and Rice School House.

From the official returns which were correct, a variation was shown from the telephone returns, reducing Hairston's lead to 12 votes.

The tabulation is complete and final and the vote will be certified as follows: Hairston 3061 and Devers 3049.

COMMISSIONERS COURT MAY BE ENTIRELY NEW

Three new faces will be in the picture at the court house in Milam county and an entirely new Commissioners Court is in prospect as votes were tabulated from the Democratic Primary election on Saturday, July 27.

Valter White, of Maysfield, returned war veteran and former Sheriff, beat the veteran Bill Alex Bonds by 1093 votes.

W. A. (Bill) Morrison, returned war veteran and former Criminal District Attorney, defeated the incumbent Ed. Gunn by 1666 votes.

John W. Hairston of Marlow, his first experience in politics, won the nomination over R. A. (Woodie) Devers by a slim 12 majority as vote tabulations were completed by the Democratic Chairman late Monday.

Homer Nabours, County Clerk, was the only county official with opposition who survived the tide to turn out old timers in the court house. L. J. Roark, of Rockdale, returned war veteran, lost to Nabours by 361 votes.

As returns came in from the contested Commissioner races in the county prospects were that the court would be made up entirely of new members.

W. W. (Dock) Markham who lost the nomination in 1944 by 30 votes in Precinct 2, came back to defeat the veteran Grady Stidham by 486 votes to win the nomination.

In Precinct 3 Byron Neal almost stole the show to run away with the (turn to page eight)

MAN HELD FOR SHOOTING AT OFFICERS FRIDAY

Three men from Rockdale were placed in jail here late Friday by Sheriff Carl Black and Deputy Douglas Barron, one of them certain to be charged with assault with intent to murder in connection with an exchange of shots with the officers from a house four miles northeast of Rockdale at 3:30 Friday.

Benard Lee (Frenchy) Barber, of Milwaukee, Wis., Buck McNamee and Fayette Davenport were arrested.

Sheriff Black and Deputy Barron were called to Rockdale by Mrs. Dave Crane who said that Barber had stolen a gun and some money from her. She had hired a taxi and had gone to the home of Davenport on the Lucas farm but did not recover her stolen property.

When Sheriff Black and Deputy Barron arrived at the Davenport house, they parked their car within 15 yards of the home. Sheriff Black saw Barber standing by a window and discovered the gun as the sun reflected its barrel through the window pane. Sheriff Black called to his deputy to beware and at that moment (turn to page four)

"PERCE STRINGS" —by— CULPEPPER'S

Hats Off to this Fellow...

HE fed us, our soldiers, our allies, and a lot of other people while we won a war. Now he's asked to keep the world from starving.

He's the American farmer.

He deserves the thanks and appreciation of everybody. He deserves it more than most folks realize because he increased his production by 30 per cent in five years without enough new tools to replace the labor he lost.

But, American farmers are disappointed—and they have a right to be. They expected that the end of the war would bring them an opportunity to replace their patched, repaired, weary and over-worked farm implements.

Of all of our shortages, that in farm tools and implements is the most serious.

Strikes have caused the shortages in farm implements—strikes in steel, strikes in coal, and strikes in the farm implement industry itself.

In the steel industry alone, the production of steel in the ten months following VJ day was 19 million tons short of expectations, enough to supply farm needs for at least five years. Most of the decline was due to strikes.

That is why the steel industry has not been able to catch up with the demand for new roofing, wire, fencing, tools and all the things of steel needed on the farm.

That is why the farmer is being penalized through no fault of his own. This nation cannot move ahead under the threat of ever-recurring labor strife.

* * *

Steel mills need all the scrap iron and steel they can get. Farmers can help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y.

The Institute has printed a booklet STEEL SERVES THE FARMER. Write for a copy and it will be sent gladly.

T. B. and Bangs Disease is the greatest problem facing this community as far as the production of disease-free milk is concerned. According to Dr. Robert Titsworth, a licensed veterinarian, there is more than 10% of the milk and beef animals affected. The Brucellus Abortus organism which causes Bangs disease causes undulant fever in man when the milk is consumed. T. B. is not as prevalent as Bangs, however it is just as important that cows be tested for it. Cameron needs milk which comes from cows that have been tested for both diseases. This does not mean that the milk would have to be grade A, because there are several other regulations governing grade A dairies. If all cows were tested we would have a much better grade of milk here in Cameron.

SHOOTING

(continued from page one)

Barber opened fire. The first shot broke the window glass and the bullet whizzed by the officers. Two other shots were fired and in the meantime the officers opened fire, in all discharging 10 bullets in the direction of Barber and into the house.

Davenport ran out the back door and was attempting to escape, at the same time pleading with the officers that he was not involved. He was handcuffed and a moment later McNamee came out and began crawling through the weeds in the direction of a ravine. The officers also handcuffed him and then immediately entered the house.

Barber ran into a room and fell across a bed, throwing his gun down as the officers closed in on him.

Sheriff Black said that Barber's gun was a .38 calibre Colt and three shells had been discharged. He was handcuffed and brought to jail along with the other men.

Sheriff Black said that charges were filed in the court of Justice McVoy in Rockdale. Barber, he said, is an ex-convict. The men he said had bought two quarts of liquor in Rockdale and had gone out to the Davenport home, the latter claiming he did not know the men were in the house. Davenport lives alone on the Lucas farm.

Barber was in jail here early during the week for default on two fines and when the fines were paid he was released Tuesday.

Although the bullets fired by Barber all but struck the officers, no one was injured in the shooting.

James C. Polk of Cameron is now a member of the United States Army and is engaged in an eight weeks training course with the Engineers at Fort Lewis, Washington.

To the People of
Commissioner
Precinct 2

My gratitude for your vote and support cannot be adequately expressed in this simple message to say "Thank You." I will try in the years to come to demonstrate my appreciation by making the most of the opportunity that now comes to me to serve you as Commissioner of Precinct 2.

The splendid majority you gave me to nominate me for this office gives me a sense of obligation I hope I can discharge. To each friend, to each one who voted for me my sincerest thanks and gratitude. To those who voted against me I have only the kindest feeling and am asking your cooperation that I may make you the best Commissioner you ever had.

In time I hope to see each one and thank them for their support. No man ever had occasion to be more thankful than I and it will be my constant purpose to remember each one.

W. W. (Dock) Markham

TO THE PEOPLE

Your vote of confidence on Saturday, July 27 and the splendid majority you gave me for the nomination for County Attorney calls forth my deepest gratitude.

I will approach my coming duties in this office with a deep sense of obligation to the people and I want each one to know how grateful I am for your vote and support.

Please be assured of entire good feelings and in this expression of thanks also goes my request for the cooperation of all.

W. A. (Bill) Morrison

OUR TOWN
(continued from page one)

this we want each member of the council to reflect for a moment on what has happened to the rank and file of Texas towns and cities. As progress came and values increased the average city failed to keep its fiscal state in step with the march. Your 1945 assessed valuations are \$3,700,000. Seven years prior to 1931 your valuations averaged a total of \$4,394,101. In 1929 the valuations were near four and a half million dollars. The seven year average prior to 1931 was \$694,101 above your valuations total. Thus it can be seen that Cameron like all other cities, in the main, has not retained its resources nor kept pace with the march of values. Today our valuations are less by nearly seven hundred thousand dollars than they were 15 years ago. It is the unanimous opinion of the Planning Board that these variations can only represent an inadequate conception of values and until

the city obtains a certified appraisal and keeps its record up to date with a system of files on every property within the city, whether real estate or other, it cannot justly fix the tax burden; that in the resulting failure to properly adjust taxation values there has been no equal and uniform rule applied and some have paid more than their just share while many have paid less."

CHRISTIAN SCIENCE SERVICES
"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 4.

The Golden Text is: "Be perfect, be of good comfort, be of one mind, live in peace; and the God of love and peace shall be with you" (II Corinthians 13:11).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And this commandment have we from him, That he who loveth God love his brother also" (I John 4:21).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "It should be thoroughly understood that all men have one Mind, one God and Father, one Life, Truth, and Love. Mankind will become perfect in proportion as this becomes apparent, war will cease and the true brotherhood of man will be established" (page 467).

Central Bus Lines in New Schedule From Cameron to Waco

Paul A. Smith, manager of the Central Texas Bus Lines with headquarters in Waco, was in Cameron Wednesday to place an advertisement in the Daily Herald, regarding new time schedules for the line between Cameron and Waco.

The new schedule permits more advantageous travel between Cameron and Waco. Three buses each day will leave Cameron, the first at 9:18 a.m. and arrive Waco 10 a.m., one leaving at 1:15 p.m. and arriving Waco at 3:05 p.m. and the third leaving Cameron at 5:17 p.m. and arriving at Waco at 7 p.m.

Three buses daily leave Waco for Cameron: one leaving there at 9:45 a.m. and arriving Cameron 11:27 a.m.; one leaving Waco at 3:15, arriving Cameron at 4:55 p.m. and one leaving Waco at 5:30 p.m. and arriving Cameron at 7:10 p.m.

Mr. Smith was glad to arrange the new schedule which permits bus travelers to go to Waco and transact business and return the same day. Likewise Waco people can come to Cameron and transact business and return the same day.

J. W. Burrage, wife and two children are moving to Cameron as soon as they can find a home. Mr. Burrage is a driver on this bus line and will make Cameron his home. Thus Cameron gains another family in the arrangements of the bus schedules.

ELECTRIC SINK

Sink and Dishwashing Center

An Electric Sink forms the sink and dishwashing center of the modern electric kitchen. It takes the unpleasant tasks of dishwashing and garbage disposal right out of your hands. No smelly garbage pails—inside or out. No more slopping around in soapy, greasy dishwater. Bring dishes directly from table to sink, and quickly thrust all "dirty work" inside.

Soon, you can push all the messy jobs into your new electric sink—and relax.

Simple scrape the dirty dishes over the sink, and—whoosh—the garbage disposal unit beneath, grinds and washes away the scraps and waste food.

Stack the dishes easily into your automatic dishwasher, add the soap powder, press the button...and the dishes are washed, rinsed and dried with no further attention.

You'll want an Electric Sink in that new dream-home—or add it like a miracle in your present kitchen.

BOLL WORM INFESTATION THREATENS COTTON CROP

Boll worms have been found in several sections of Milam county, according to J. W. Stufflebeme, Jr., County Agent, and the damage is severe in the San Gabriel and Thorn-dale communities. This insect, when the infestation is heavy, can completely destroy a cotton crop in a few days time.

Farmers are urged to examine the tops of the cotton plants and if 35 of 40 bollworm eggs are found per 100 terminals or if young worms are found in the small squares or on tender leaves, the infestation is considered high enough to necessitate dusting. Bollworm eggs, when they are first deposited on the plants, are white and about the size of mustard seed and as hatching time approaches they change to a dirty white in color. These eggs are found scattered about the terminal portions of the plant.

To obtain adequate control no time should be lost in applying dust after the above number of eggs or young worms are found. The use of a 5% DDT dust is probably the best control, and fair control has been obtained by dusting with 5 to 10 pounds of calcium arsenate per acre.

Miss Rose Rischar who has been quite ill is reported to be improving.

TAYLOR ALL STARS ARE WINNERS OVER CAMERON

Taylor All Stars whipped the Cameron All Stars in the return game here Thursday night, 9 to 5. It was the second defeat the Cameron team has suffered at the hands of the Taylor team.

A spirited argument developed over a decision by Umpire DuBois and the Taylor team threatened to leave the field but returned to play and won the game handily.

Billie Mitchell, of the All Stars said that while it was discouraging to drop two games in a row the team is determined to keep up the fight.

HOUSE JOINT RESOLUTION

proposing an amendment to Article VIII of the Constitution of the State of Texas by adding thereto a new section to be known as "Section 7-a"; providing that subject to legislative appropriation, allocation and direction all net revenues derived from the taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicles registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1946; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund, providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; negating any interpretation of this amendment as authorizing the pledging of the State's

credit for any purpose; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; and providing for the proclamation of the election and the publication thereof.

BE IT RESOLVED BY THE STATE OF TEXAS:

Section 1. That Article VIII of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as 7-a and to read as follows:

"Section 7-a. Subject to legislative appropriation, allocation and direction, all net revenues remaining after payment of all refunds allowed by law and expenses of collection derived from motor vehicle registration fees, and all taxes, except gross production and ad valorem taxes, on motor fuels and lubricants used to propel motor vehicles over public roadways, shall be used for the sole purpose of acquiring rights-of-way, constructing, maintaining, and policing such public roadways, and for the administration of such laws as may be prescribed by the Legislature pertaining to the supervision of traffic and safety on such roads; and for the payment of the principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible prior to January 2, 1945, for payment out of the County and Road District Highway Fund under existing law; provided, however, that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; and, provided, however, that the net revenues derived by counties from motor vehicle registration fees shall never be less than the maximum amounts allowed to be retained by each County and the percentage allowed to be retained by each County under the laws in effect on January 1, 1945. Nothing contained herein shall be construed as authorizing the pledging of the State's credit for any purpose."

Sec. 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at the General Election to be held in November, 1946, at which election each ballot shall have printed thereon the following words:

"FOR the Amendment to the Constitution of the State providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purpose of acquiring rights-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety, and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

"AGAINST the Amendment to the Constitution of the State of Texas providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purpose of acquiring rights-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1946; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1946; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

"Each voter shall strike out with pen or pencil the clause which he desires to vote against so as to indicate whether he is voting FOR or AGAINST said proposed amendment."

A Plea for Unity

The Churches of Christ for the unity of all believers in Christ. There is a scripture position which can be found on all disputed doctrinal questions. However, this unity must be on a scriptural basis with no compromise of Bible truth. Denominational names should be abandoned; unscriptural doctrines discontinued, and the original New Testament Church exalted. We believe the world is dissatisfied with denominationalism, modernism and the many cults that abound today.

Surely the time is ripe for a great revival and forward movement among the honest hearted religious people who really want to take the Bible at what it says, and who wish to develop in the world a great and glorious kingdom of Christ which shall cover the earth as the waters cover the sea.

To all who are thus minded, we extend an invitation to cooperate with the Church of Christ to the end that many souls may be saved, and that

not a candidate for re-election.

In Precinct 1 C. S. Raney of Buckholts won the nomination over E. O. Pagel of Yarrellton. Will Kuzel of Buckholts, the incumbent, was not a candidate for re-election.

In Precinct 4 E. G. Stiles, the incumbent, was definitely so far behind T. F. Locklin that a run-off seemed hopeless with a full vote. Mr. Locklin led the race and will contest Stiles in the run off.

In Cameron B. F. Bailey, veteran Constable, won over Homer Allen, newcomer in politics.

More than 6200 votes were polled

in the county.
